Overview

The Gold Standard in Real-Time Sports Stats

SportsData's team of data-entry experts crunch play-by-play information for packaging and delivery using new technology that results in the fastest updates in the industry. And because our clients demand depth, no statistic is too small. We focus on:

Accuracy. From instant play-by-play to in-game cleanup, official and final, we maintain the highest standard in data accuracy.

Simplicity. We deliver your sports data feed to meet customer specifications, in any industry-standard format; our flexibility makes your transition fast and seamless.

Speed. We offer real-time delivery of data using highly optimized publishing techniques.

Service. We approach every client relationship as an opportunity for a long-term partnership, and will work tirelessly for you from Day 1.

NHL Statistics Feeds

We package our comprehensive stats collection into 14 feeds, each focused on serving specific information needs.

Daily Change Log – information on any changes made to teams, players, game statistics, and standings

Daily Schedule – date, time, location, and other event details for every match-up taking place in the league defined day

Daily Transfers – information for all transfers added or edited during the league defined day

Game Boxscore – top-level team scores by quarter along with full statistics for each team's leaders in assists, goals, and points

Game Summary – top-level boxscore information along with detailed game stats at the team and player levels

Injuries – information concerning all active player injuries for all teams within the league

League Hierarchy – league, conference, division, and team identification and association information

Play-By-Play – detailed, real-time information on every team possession and game event

Player Profile – detailed player information including a current look at the player's statistics for the current season

Schedule – date, time, location, and other event details for every match-up taking place in the full league season

Seasonal Statistics – detailed team and player statistics for the defined season

Series Schedule – play-off participant information as well as the date, time, location, and other event details for every match-up taking place for the entire play-offs

Standings – detailed team records across various views including, overall, conference, and division information

Team Profile – detailed team information including league affiliation information as well as player roster information

Frequently Asked Questions

Q: What are the Game statuses I can expect to see in the feeds and their definitions?

A: Here is a list of the valid game statuses you can expect to see, and their definitions.

scheduled - The game is scheduled to occur.

inprogress - The game is in progress.

complete - The game is over, but stat validation is not complete.

closed - The game is over and the stats have been validated.

cancelled - The game has been cancelled.

delayed - The start of the game is currently delayed or the game has gone from in progress to delayed for some reason.

postponed - The game has been postponed, to be made up at another day and time.

time-tbd - The game has been scheduled, but a time has yet to be announced.

unnecessary - The series game was scheduled to occur, but will not take place due to one team clinching the series early.

Q: What are the player positions I can expect to see in the feeds?

A: Here is a list of the valid player positions you can expect to see.

NA

D

F

F-D

G

Q: What are the player primary positions I can expect to see in the feeds?

A: Here is a list of the valid player primary positions you can expect to see.

NA

C
